MACHINE POETRY.

By Mike Cohen.

Miner from the Diggings once came down, Whose wretched aspect was perceived by all t Whose wretened aspects one town;
town;
I town;
In fact, he looked an object, quite forform.
He sought a bed—but where to get that bed
lite did not know, nor were to rest his head;
White pondering this, a good sight met his view;
He is! Dorado Rede—price 50 cents, and 5 and 5.

too.
"Lets have a quarter's worth," our miner said,
And, quick as thought, he soon in bed was laid!
He slept a weary sleep, and the next morn arose,
The more refreshed, for he had doffed his clothes.
They pants he did not wish again to wear,
And thought perhaps his host would send out for pair:
He called out for the landlord, and much surprised was he.
Our friend Mike Cohen, of the "Red House," there

O ste.

"Unit Mike, you in this line!" our miner said:

"Then bring me up some pants, and something for

my head."

Mike brought them up, and quick as thought,

Our friend the miner a new sult had bought,

Paid down his money, then, looking in the glass,

His compliments to Mike he thus did pass:

"Whene'er a man wants rigging out in something

new, for little money, Mike. I'll send him straight to For little money, Mike, Pri senu nine seventhal you.
And now, friend, Mike, pray tell me where
For breaklast I can get good fare?
"Tis but next door, a Restaurant keep!"
Snya Sike, and put break finst herd
And said that for a quarter 'twasan't bad;
For Mike, I see, knows how to do the trade,
And put all other right into the shade.

some mode of ending an evil comes round.

Tyrants have their turn as well as others.

Nothing saves them from going the way of

extent console himself with the reflection

that it will be all the same a hundred years hence. Fortunately, however, for our powers

of endurance, the remedy for many of our

during the time it has been in existence as

would induce the public to bear quietly with

those who are to make laws for this colony

during the next three years. So it will be

seen that no time can be lost if we would

have the proper kind of men to represent

us. Some at least of those of our past mem-

of British manufactures, and our capacity for

consumption would of course vastly increase

with the accession of a large number of im-

Monday, Feb. 9, 1863. The Council met at 7:20 p. m. Present— The Worshipful the Mayor, and Councillors Copland, Searby, Lewis, and Hicks.

INFRINGEMENT ON THE STREETS The following communication in reference to the complaint of certain property holders on Yates street, was read: To the Hon. Mayor and Council, &c .:

In reply to a communication received from your honorable body on the 3d inst., enclosing copy of petition from property holders on Yates street, above Douglas, and requiring a report thereon, I have the honor to report that the Anglo American Hotel is built to the true line of Yates street, but the fencing immediately adjoining thereto to the Eastward, encroaches a distance of 13 feet 6 inches upon the public street.

6 inches upon the public street.
FRED. W. GREEN,

On the motion of Mr. Hicks, seconded by Mr. Copland, it was resolved that the proprietor be required to remove the fence from off the street forthwith.

A communication from the Surveyor General, in reply to the inquiry of the Municipal Council as to the extent of the reserves marked upon the town maps of 1852 and 1855, and the authority by which the same were made, was next read. The Surveyor General hinted that he thought there must be some mistake in regard to the inquiry, as he had cartefully examined the map of 1852, and could find no reserve marked on it, and the only one he perceived on that of 1855 was the ten acres on the south side of James of the gale, on Saturday morning last. She was boarded off Trial Island by Capt. Oberg, of the schooner H. C. Page, who took the bor, but finding that impossible from the wind being adverse, with a strong gale blowing safely into Port Townsend. Our informan states that there were between sixty and sevently passengers on board, about thirty of whom landed and remained on shore on Saturday evening and Sunday. We regret to hear that some discreditable attempts have been made by certain parties at Port Townsend to induce the sailors to desert and have not gone so for as to held desert and have not gone so for as to held desert and have not gone so for as to held desert and the sailors to desert and have not gone so for as to held desert and have not gone so for as to held desert and the sailors to desert and have not gone so for as to held desert and the sailors to desert and the sailors to desert and have not gone so for as to held the sailors to desert and the sailors the sailors to desert and the sailors to desert and the sailors the sailors to desert and the sailors the sa was the ten acres on the south side of James Bay, now occupied by the Government build-ings, which was made by order of the Gover-Mr. Hicks said that he thought the Sur-

luded to several reserves.

Mr. Copland thought that the communication from the Council had not been sufficiently general. He moved that a committee be ap-pointed to wait upon the Surveyor General,

prosecute further the inquiries as to the e matter Carried. Mnssrs. Copland and Hicks were appointed. STREETS. A communication from the Gas Company, notifying the Council of their intention to open certain streets, in order to lay service pipes, was read and placed on file.

SABBATE OBSERVANCE. A petition was read signed by twenty licensed publicans, and praying for the passage of an Ordinanse to compel all persons engaged in the business to keep their houses closed until 1 p.m., and from 3 to 5 p.m. on Sundars.

Sundays. Mr. Stronach moved that the petition be referred to the Committee upon Ordinances. Carried.

The next was a petition from Pattrick & Co., asking the authority of the Council to run a sewer through some adjoining property.
On motion of Mr. Searby, seconded by Mr. Stronach, it was resolved that the clerk be instructed to inform the petitioners that the Council had no authority to interfer with Council had no authority to interfere with private property. SIDEWALKS ON YIEW STREET.

A communication from Mr. Bendixen, proprietor of the St. George Hotel, stating that he had himself conformed to the provisions of the sidewalk ordinance, and praying that his neighbors be compelled to do the same, was read and placed on file.

TRADES LICENSES. A communication from the Attorney-Gen-A communication from the Attorney Gen-eral, stating that owing to ill health he had been unable to consider the By-law to enforce the collection of Trades' Licenses (submitted for the Governor's approval) was read and placed on file.

TENDERS FOR SIDEWALKS.

TEXTERS FOR SIDEWALKS.

The tenders for the construction of —
feet of sidewalk on the south side of Pandora street, and — feet on Fort street, were opened and read. Twenty-four had been received; the price tendered varied from 39cts. to 80 cents per running loot.

On the motion of Mr. Searby, the contracts for both streets were awarded to Mr. Edward Lyne, whose tender, 39 cents, was one cent below any other.

Mr. Hicks moved that tenders be called for grading and macadamising those streets for the work on which the City Surveyor had already prepared plans and specifications.

Mr. Stronach thought the matter had better be postponed, in consideration of the present inopportune season of the year.

The Mayor stated that the Council had belowly of purpower and it was therefore unneplenty of money, and it was therefore unne-cessary to delay the works.

essary to delay the works.

Mr. Lewis urged that the motion be put and carried at once, as some time would clapse before tenders could be received and given out and work commenced.

It was finally determined that action on the matter should be deferred.

On the motion of Councillor Copland a By-law was brought in and rend a first time empowering Messrs, Cor and Martin to sup-ply the city with, water by means of Arte-sian Wells.

REPORT OF COMMITTEES.

The committee appointed to provide work and relief for the destitute, reported by Mr. Copland the progress of the work.

Mr. Lewis, on behalf of the committee appointed to consider the delinquencies under the Ordinance on Sidewalks, reported progress

gress.

The Finance Committee reported that Messrs. Jeffray, Bray and Reynolds, had executed their contract to the satisfaction of the City Surveyor, and recommended that a order for the sum of \$300 be handed to the contractors; also, that the Relief Commit-tee had incurred indebtedness to the amount of \$53 50, for which sum they advised that or 5.5 50, for which sum they have a mar an order be granted.

The report of the committee, with the directions therein contained, was then adopted.

NOTICES.

Mr. Hicks gave notice that he would move

JMr. Hicks gave notice that he would move for a reconsideration of the Ordinance effecting the collection of the tax on real estate; and also the adoption of a By-law for the collection of the same.

Mr. Searby gave notice that at the next meeting he would move that an agreement be made with Messys. Coe and Martin that they should not dispose of the plant, or other property connected with the proposed waterworks, to any private individual or public sompany without first offering the same to the Corporation, on terms equally favorable with those proposed to such other parties.

Some discussion then ensued upon the Clerk's bonds, after which the Council adjourned.

The string and sleighers in and around town: Large numbers of amusement scekers might be seen going in all directions, with skates in hand, and wherever ice was to be found it was covered with busy crowds of boys and men at these favorite pastimes. Sleighs were also out, the horses, as usual, decorated with bells, the merry jingle of which might be heard in all quarters of the town. The scene everywhere was Canadian-like, with the exception that the softer sex did not join in the skating movement going on.

Angry words ensued, and the defendant made at the complainant with the intention of asseulting him

Esquimalt Free School

A meeting was held Friday Evening, the 6th inst, at 8 p. m., by Mr. E. Wilby stating that a letter from the Bishop of Columbia would be laid before them, along with other business connected with the School and the duty of the Committee. Rev. C. T. Woods was called again to the

hear further particulars of the matter, we re-frain from characterising such conduct as it deserves. Up to yesterday morning the men had remained true to their allegiance, and the efforts made to seduce them were frustrated. The Julia was to leave for this port yesterday. Messrs. Janion, Green & Rhodes are the Consignees of the vessel here. Wr. Wilby stated that since the Bishop's ubscription had been entered on the list, a letter from him, (the Bishop) in a manner qualified it by certain conditions, which the committee deemed most prudent to lay be-lore the meeting, they having represented that the school should be non-sectarian. The clause in it referring to catechism needed well private in the Royal Marines, was brought before the Police Magistrate yesterday morning, on a charge of being a straggler from H. weighing, to see whether it would be our duty to reject the donation on such conditions, duty to reject the donation on such conditions, or whether sufficient checks could be established to prevent an intringement of the principles laid down by the committee. It such rules were honestly carried out they would aurmount every difficulty; but it was necessary for them to remember that one of that committee was a member of the Church of England and might possibly lean toward that creed, and thus shake the public confidence. That on the first enset of our labors as a committee he (Rev. C. T. Woods) had ignored the action of a majority thereof in the matter of an advertisement for a teacher, decided on by Mr. Wilby and Mr. Hawkins, directing applicants to meet the committee at this residence on a given day, he, instead, inserting one directing or referring them to him (Rev. C. T. Woods) solely. People looked mistrustfully at this action, and openly accused the remaining committee men of breach of promise in giving a minister of any church the first chance of engaging or refusing a teacher who did not profess his own creed. He deemed it necessary to bring this action before them at the beginning, that in future the will of the majority should be acted on. Mr. Hawkins moved that another committee man be appointed instead of the Rev. C. T. Woods). M. S. Topaze, and resisting and assaulting or whether sufficient checks could be estab police constable Ford in the execution of his duty. The officer swore to having, in com-pany with the ship's corporal, visited No-lan's public house on the Bequimalt road and arrested the prisoner; that after they had got outside the house the prisoner ran away, and on being retaken, resisted and kicked him. Stansbury, ship's corporal of H. M. S. Tond stated that even after they had placed the and stated that even after they mad placed the handcuffs on him, the prisoner was so violent that it was with difficulty they could convey him to Esquimalt.

Mr. Pemberton sentenced him to a fine of £3, and directed that he should be sent on board his ship for the first charge to be tried by his own officers.

man be appointed instead of the Rev. C. T. Mr Battle seconded the movement in an

able speech.

The Chairman defended his sent on the committee, on the grounds that he in a manner represented the Bishop in the present business, who had subscribed largely, and made no secret of the matter in speaking to several parties in town, previous to our applying to him for particulars. A good deal of anxiety has been left by the public her since the report first obtained currency that the ship was outside, and a desire to ascertain the true state of the facts about her led us to apply to the particular of the ship was outside, and a desire to ascertain the true state of the facts about her led us to nad also given the use of the building; and hat if he had been guilty of any breach of luty, with regard to the advertisement, he coped his co-committeemen would accept s apology, which he now tendered.

The Chairman did not put Mr. Hawkins' often to the meeting, and it was not in-

Mr. Rothwell said that we should have free education without sectarianism, and he considered this essential.

Mr. Williams considered the obstacles not so weighty, but that they might be overcome so as to suit all parties.

Mr. Wilby then moved the following resolution entire that although one of the considered that the same of t Yale. Subsequently he was removed, and after vegetating in Victoria and on San Juan Island for a while, he at last turns up at San

Seconded by Messrs. Preston and Battle jointly, and carried by majority.

Mr. Robson wished to know how the present school-house was built—whether by the Bishop or by subscription.

Rev. R. J. Dundas responded, stating that he had collected subscriptions in 1859 for the In the interlude Miss Divine will sing a popular ballad, after which Miss Mitchell will recite the Fireman's Address. Rev. Mr. Dundas replied that he believed he could find out what amount had been collected; that it had all been disbursed, but collected; that it had all been disbursed, but vouchers in many instances not having been taken, and the accounts being in some disorder, owing to press of business, at that time he was not able to give the items.

The following was proposed by Mr. Wiliams, and seconded by Mr. Battle:

Carried unanimously.

Mr. Wilby stated that having thus given an opportunity for any one to come forward and give advice to the committee or raise objections, he hoped no other public meeting would be needed. The Bishop's letter having been discussed, and a proper understanding come to as to the ruling power, in the committee, namely, a majority, business would be resumed on a better footing. Proper checks on accounts would be adopted, and these would always be open to public inspection. The committee now felt authorized to proceed at once to the selection of a teacher, proceed at once to the selection of a teacher and hoped in a few days to open the school.

Mr. Battle moved a vote of thanks to the
Chairman, and that the meeting adjourn.

per annum.

The conveyance of this land in trust to the Bishop of the Diocese, I interpret to mean that he is to see that the education is of the best oor that can be had, that Christian instruction shall be given all whose parents consent to it, and especially that those of the Church of England may be fully trained in the principles of the Church. At he same time our schools are to be made as widely useful as possible, and to meet all wants in a liberal spirit.

in the same time our schools are to be made as widely useful as possible, and to meet all wants in a liberal spirit.

The following is the rule we have already adopted as to religious instruction:

"The Holy Scriptures alone shall be used for general religious instruction, at which all children must be present except in special cases (as for instance, Roman Catholics and members of the Jow ish persuasion), to be agreed upon between the managers and the parents."

Special religious instruction (Catechism, &c...) will be given apart from the rest of the school. Children of parents who may not desire such instruction will not be required to attend.

These rules honestly carried out will meet every difficulty in the most difficult part of the Educational question, at the same time there is secured to the school a healthful respect for religion.

I have placed this matter in detail on paper that you may be able to give definite information upon the sulhect.

Believe me, my dear Mr. Woods.

you may be able to give definite information upon the subject.

Believe me, my dear Mr. Woods, Very faithfully yours, (Signed)

Letter from Hon Malcolm Cameron The following letter from the Hon, Malcolm Zanieron, who has taken his departure for Eng-and as a delegate from the colony of British Columbia, is published in the Sarnia Observer. It

s dated Sarnia, December 15, 1862:- -

"In my last, written from New Weslminster, British Columbia, I promised to give you a descrip-tion of that town, the mouth of Fraserviver, and its advantages. I inclose it now, satisfied you will do it

ustice.

"So much has appeared of late in Canadian papers, respecting British Columbia in general, and Cariboo and the mining regions in patricular, that L need add but little to what I have already written, except in the way of a few general remarks. The tatements of individuals in respect to their perstantial control of the control tatements of maintanas in respect to their peronal privations, their disappointments and inconeniences, and their attempts to realize the object
if their journey—the accumulation of a 'pilo' with
so more exertion than would be necessary to sink
nordinary well in Canada, or an oil well in Eniskillen—are quite real from their stand point of
iew, but, notwithstanding, are not generally all
he truth. Has one of the 'strapped' Carioocers
one into the country a sincle mile from the river. gone into the county a single mile from the river, or from the trail he isollowed when going to the mines, to see what was its appearance, or what were its capabilities? I have no hesitation in answering that they have no! In place of exploring it, in order to ascertain its agricultural capacity, they have uniformly fellowed the river a certain distance along its banks and then traversed the very centre of the Cascade range of mountains on their way to the mines, the very wildest part of it; so that their opinion of it is just such as a man who had gone from Loch Lomond, via Glencoe, to Balhahulish, might be expected to declare, if he said there was no good land in Scotland; and that a good farm in Warwick was worth the whole Northern Island. I have been down from Westminster twelve mites among all the islands, across to the English Day on the other side—a few miles up the river, and ashore at various points near the Brunette river, Pitt river, at Fort Langley, Calhope Mission, Mouth of the Harrison, Hope, etc., and I am isatisfied that below Hope there is abundance of good land to sustain 100,000 settlers. It is expensive to clear or drain, at the present price of labor; but if timber, sells, as it soon will, and labor declines to an average rate, the flat lands will pay well, and there is no richer soil in the whole world than that portion of the country which lies between Westminster and the boundary line in the Semilekimeen Valley around Lake Oconagan, up to Kameloop, on the Thompson and Bonaparte. No one can deuy that the boundary line in the Semilekimeen Valley around Lake Oconagan, up to Kameloop, on the Thompson and Bonaparte. No one can deuy that the pasture ranges for cattle are boundess; and no housing during winter is required—was not, even in the past extraordinarily severe winter. Then, recently, from the Bute Inite, northeast from the Fraser, a route has been surveyed, diagonally across the country to fort alexander, and large level plains, beautiful slopes, and rich prairies prevail along the wh

hope have the courage still to persevere, netwithstanding the fears of some of their best friends.
When they look at the objects to be gained,—not
only triumphant success to our present; roads and
canals,—remuceration of English capitalists who
have invested with, and for us—great military
profection at less cost than J. A. McDonald's
Militia Bill—the building up of two British Provinces, and a British American sca-port, instead of
Portland,—where even our members of Parltiment have been investing, and putting for h
energy, talent and money, to the injury of British
America), much more would be gained besides
the saving of the £104,000 of postal subsidy,
which really establishes the fact I stated in Parliament, that by saving this item alone, the road
would be the means of introducing much
money and many settlers into the East, and of
shortening the route to England by ten days; not
only of cementing the bonds of friendship,
brotherhood, and commercial interest between
England and the Provinces; but above all, would
eventually lead to the construction of a Railway
from Western Canada to Red River, thence to the
head waters of the Fraser, and thence to the
Paoiñe! Canada would thus become the centre,
the very life's blood of the 'great thoroughfare of
the universe,' over which every mition will pass
and repass in the expanding civilization and christieves, and which is now alive to the truth that
there are no Rocky Mountains to overcome. The
Almighty left a level, open passage in this huge
mountain chin. There are no natural barriers;
it is all plain and casy. With knowledge of the
facts, faith in our resources, courage in our hands,
honesty in our rulers, within ten years the wagon
and the steamboat will have made us familiar with
a route, that may be accomplished in twenty days.
In short, in less than ten years the steam whish

'I all fast on Monday morning, will cheer the people of Westminster as they sig their tea on Saturday night; while the magnifi

ADVANTAGES OF WOMEN.—A woman says what she chooses without being knocked down for it. She can take a snooze after down for it. She can take a snooze after dinner while her husband goes to work. She can go into the streets without being asked to "stand treat" at every saloon. She can paint her face if it be too pale, and powder it if too red. She can stay at home in time of, war, and get married again if her husband be killed. She can wear corsets if too thick—other fixens if too thin. She can get divorced from her husband wheuever she sees one she likes better. She can get her husband in debt all over until he warns the public not to trust her on his account. But all these advantages are balanced by the great fact that she caupt "pop the question."

BARNUM ON ADVERTISING .- P. T. Barnum noted an enquiry as to the site of the present school chapel.

There are three lots or portions, obtained through the exertions of the Rev. B. J. Dundas, conveyed in trust for school and church purposes. Ist. By Mr. John Crittle in trust to the Bishop of British Columbia and his successors, apoir trust, that the premises shall forever hereafter be dedicated to and made use of for such educations and charitable purposes as the said Bishop of British Columbia for the time being shall think fit, and for no other object whatsoever.

These two lots together form the site of the prevent building.

THE MASONIC TIE. - The Washington Chronitle says there are strong grounds for telleving that the reason why the Alabama termitted the Tonawanda to continue her permitted the Transwanda to containe her voyage to Europe, on kiving a bond of \$60,000 as a ransom, was that the commander of the privateer and the merchantman had known each other as Free Masons. When Captain Julius reminded Captain Semmes of this, he let the vessel go ransomed by the bond, instead of destroying her.—St. John's
